### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mark Young on August 16, 2004.

The application has been amended as follows:

Claim 14. (Currently Amended) An overlay mattress having a patient support surface, said overlay mattress including an overlay mattress cover, said mattress cover enclosing therein:

- a) a cushion layer
- b) a lifting cell layer comprised of a plurality of lifting cells for elevating portions of the overlay mattress; and
- c) a bottom layer,

wherein the lifting cells are comprised of fluid inflatable bladders and the lifting cells include bellows-like pleats to facilitate expansion.

Claim 42. (Currently Amended) A modular overlay mattress having a patient support surface, said overlay mattress including a removable overlay mattress cover enclosing therein:

- a) a removable cushion layer;

- b) a removable lifting cell layer comprised of a plurality of removable lifting cells for elevating portions of the overlay mattress;
- c) a removable bottom layer;
- d) a removable thermal layer for controlling the temperature of the patient support surface; and
- e) removable inserts for replacing said lifting cells removed from the modular overlay mattress.

Claim 49. (Currently Amended) A method of reducing the risk of bedsore formation, said method comprising the steps of:

- a) providing an overlay mattress according to claim 41;
- b) laying a patient on a patient support surface of the overlay mattress;
- c) cycling at least one of said plurality of fluid inflatable bladders in the vicinity of an area of the patient's body susceptible to bedsore formation between a first fluid pressure and a second fluid pressure at a determined frequency; and
- d) cycling at least one other of said plurality of fluid inflatable bladders in the vicinity of an area of the patient's body susceptible to bedsore formation between the second fluid pressure and the first fluid pressure at the determined frequency.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Sato, U.S. Patent No. 4,542,547, discloses an overlay mattress comprising a bottom layer, a cushion layer, a lifting cell layer comprising a plurality of lifting cells including bellow-like pleats, and an overlay mattress

Art Unit: 3673

cover. However, the overlay mattress cover does not enclose the cushion layer, lifting cell layer and bottom layer. Furthermore, the overlay mattress cover does not include a plurality of pleats along one or more of its sides to facilitate expansion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Teri Pham Luu** whose telephone number is **(703) 305-7421**. The examiner can be best reached Monday-Friday from 6:30 am to 2:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Heather Shackelford**, can be reached at **(703) 308-2978**.

Submission of your response by facsimile transmission is encouraged. Technology Center 3600's facsimile number for all official papers is **(703) 872-9306**. Recognizing the fact that reducing cycle time in the processing and examination of patent applications will effectively increase a patent's term, it is to your benefit to submit responses by facsimile transmission whenever permissible. Such submission will place the response directly in our examining group's hands and will eliminate Post Office processing and delivery time as well as the PTO's mail room processing and delivery time. For a complete list of correspondence not permitted by facsimile transmission, see MPEP § 502.01. In general, most responses and/or amendments not requiring a fee, as well as those requiring a fee but charging such fee to a deposit account, can be submitted by facsimile transmission. Responses requiring a fee which applicant is paying by check should not be submitted by facsimile transmission separately from the check.

Responses submitted by facsimile transmission should include a Certificate of Transmission (MPEP § 512). The following is an example of the format the certification might take:

I hereby certify that this correspondence is being facsimile transmitted to the Patent and Trademark Office (Fax No. \_\_\_\_\_) on \_\_\_\_\_ (Date) \_\_\_\_\_

(Typed or printed name of person signing this certificate)

\_\_\_\_\_  
(Signature)

If your response is submitted by facsimile transmission, you are hereby reminded that the original should be retained as evidence of authenticity (37 CFR 1.4 and MPEP § 502.02). Please do not separately mail the original or another copy unless required by the Patent and Trademark Office. Submission of the original response or a follow-up copy of the response after your response has been transmitted by facsimile will only cause further unnecessary delays in the processing of your application; duplicate responses where fees are charged to a deposit account may result in those fees being charged twice.

Communications via Internet e-mail regarding this application, other than those under 35 U.S.C. 132 or which otherwise require a signature, may be used by the applicant and should be directed to [heather.shackelford@uspto.gov](mailto:heather.shackelford@uspto.gov).

All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed expressed waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1195 OG 89.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
